Where - DNR Outdoor Adventure Center, Detroit (on the Detroit River, next to Milliken State Park)

CONSERVATION NEEDS YOU

Ecologically important natural areas and places of local and scenic value continue to diminish in our region. Saving what's left can be challenging due to economic and development pressures.

Thanks to the generosity of our donors and funders, Southeast Michigan Land Conservancy has been able to protect more than 3,400 acres during the past 30 years and is still saving. This is especially notable in our heavily urbanized region.

Together, we have protected forests, wetlands and prairies, forever. Your support will help SMLC as we work to conserve these special places.

SMLC MISSION

The Southeast Michigan Land Conservancy conserves natural land and open space - including forests, wetlands, meadows, agricultural lands, and places of scenic beauty - to provide habitat for wildlife and to enrich the lives of people.
